[<https://clx.asso.fr/spip/local/cache-vignettes/L400xH400/Leap1-8db96d3e-25c71.png>] Demain est un grand jour... puisque openSUSE Leap sera disponible publiquement avec pas mal de nouveauté que nous détaillerons comme toujours dans un autre article.

Si vous êtes impatient de voir à quoi ressemble cette version final, il est possible de vous rendre sur le site officiel rubrique des [copies-écran](#).

Je vous présente dès à présent une liste non exhaustive des miroirs où sont ou seront disponibles les images disques d'openSUSE Leap, en France, en Europe ou dans le monde.

Rappel : L'artcle « [Télécharger openSUSE 12.3 en mode écodownloader](#) » est toujours valable pour cette version !
