Raspberry Multiroom Audio Project With Max2Play

▷<http://www.instructables.com/id/Raspberry-Multiroom-Audio-Project-With-Max2Play>

I want to show you how to create a Multiroom Audio Solution with Max2Play, Raspberry Pi and high-end sound cards. In doing so, two aspects are most important to me : It should be reasonably priced and I want to be able to access it from anywhere in my local network. This instructable is also available on our Website.
